COVENANT TO RESTRICT USE OF PROPERTY  
FASS METAL COMPANY SITE

This Covenant and Agreement ("Covenant") is made on the 27 day of November, 19 96 by Jack Fass and Diane M. Fass, husband and wife ("Covenantor") who are the owners of record of certain property situated in the City of Richmond, County of Contra Costa, State of California, described in Exhibit "A" attached hereto and incorporated herein by this reference ("Property") and by the California Department of Toxic Substances Control ("Department"), with reference to the following facts:

A. The Property is a two acre parcel, located at 818 West Gertrude Avenue, Richmond.

B. Description of Facts.

B.1. Contamination of the Property. Hazardous substances are present in soils at the Property, including, but not limited to, polychlorinated biphenyls (PCBs), chlorobenzene and heavy metals.

The hazardous substances found on the Property are to be contained and monitored by the placement of: 1) a perimeter slurry wall, 2) a cap consisting of a plastic liner, a controlled density fill topped with an asphalt concrete paving, 3) an extraction trench along the length of the area enclosed by the slurry wall from which groundwater is to be removed via a sewer line for disposal into the local sewer, and 4) a groundwater monitoring system. The purpose of the containment and monitoring system and other mitigation measures taken is to minimize exposure pathways to humans and the environment.

B.2. Exposure Pathways. If the contaminated soils should become uncovered, exposure can take place via direct contact, surface water runoff, wind dispersal, or migration to the groundwater resulting in potential dermal contact, inhalation, or ingestion by humans. The risk of public exposure to the contaminants has been minimized by placing the contaminated soil under a composite cap.

- C. The Department has determined that use restrictions need to be imposed on the Property to ensure full protection of public health and the environment.
- D. The Property is presently owned by the Covenantor. The Property has been used as an industrial site (salvage yard).

ARTICLE I  
GENERAL PROVISIONS

1.1 Provisions to Run With the Land. This Covenant sets forth protective provisions, covenants, restrictions, and conditions (collectively referred to as "Restrictions"), upon and subject to which the Property and every portion thereof shall be improved, held, used, occupied, leased, sold, hypothecated, encumbered, and/or conveyed. Each and all of the Restrictions shall run with the land, and pass with each and every portion of the Property, and shall apply to and bind the respective successors in interest thereof. Each and all of the Restrictions are imposed upon the entire Property unless expressly stated as applicable to a specific portion of the Property. Each and all of the Restrictions are imposed pursuant to Sections 25355.5 and 25356.1 of the Health and Safety Code and run with the land pursuant to Section 25355.5. Each and all of the Restrictions are enforceable by the Department.

1.2. Assignments.
